Consulting

What will I do in Consulting?

You are responsible for end-to-end implementation of HighRadius cloud-based SAAS products for fortune 1000 clients around the world. Active involvement during the Blueprint, Realization, Testing, CutOver, Go-Live & Hypercare phases of the project. Closely collaborate with clients, functional leads, technical teams, product management & QA to rapidly deploy enterprise-grade solutions for the clients.

What is the job role?

The job role is a hybrid of functional and technical aspects of implementing HRC Cloud products. There is no coding required.

What is my career progression?

Your career path is an evolution into client management and project management roles based on the ability to demonstrate client communication, project management, return on investment(ROI) on implementations over a period of time.
